

## Airsprint Opens New Toronto Pearson Facility

Over the past 12-month period we have undertaken a comprehensive analysis of fleet movements. That analysis has indicated a necessity to open a Toronto Pearson base of operations. As such, we have evaluated the options at Toronto Pearson and have chosen a facility to base both Citation XL/S and Pilatus PC12 aircraft, our Toronto sales personnel and maintenance engineers.

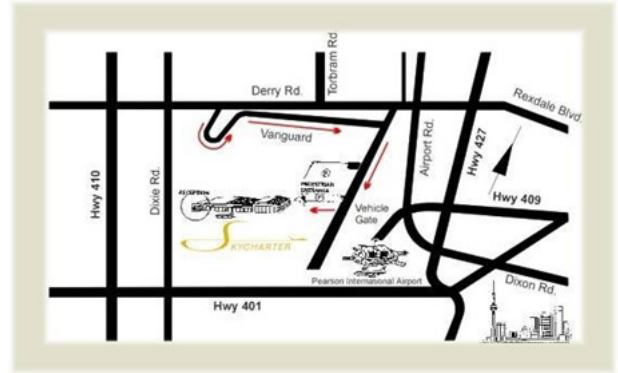

The facility, located at 2450 Derry Road East, Hangar #8 has just undergone a renovation and boasts convenient access off Derry Road, a very elegant departure lounge and valet parking so that you may drive your vehicle directly to the aircraft for your departures and have it freshly detailed and waiting for you upon your return (detailing service available spring 2009).

This expansion further enhances our service and supports our growing ownership base in the greater Toronto area. I look forward to hearing back from you on the facility and the service upon your next visit into the Toronto Pearson airport.

We continue to look for ways to run the fleet in a more efficient manner and this expansion accomplishes this goal. During this difficult economic period, we continue to refine our internal processes and fine tune our service. We look forward to a healthier economy, a stronger market and the opportunity to serve your private aviation needs for many years to come. Thank you for your continued business.

Judson T. Macor  
Founder & CEO
