

JetAssure by AirSprint // YOUR SUPPLEMENTAL LIFT SOLUTION

Why The Program is Right For You // WE ARE ALWAYS READY

As a whole aircraft owner, there are times when your aircraft is not available due to mechanical failure, scheduled maintenance or pilot availability. There may also be times where the repositioning of your aircraft is too costly or you need it to be in two places at once. Imagine having a turn-key, cost-certain supplemental lift solution that offers guaranteed access to a jet whenever you need it, fuelled-up and ready to go.

Program Highlights //

- Guaranteed access, anywhere in North America, with 24 hours' notice
- 24 / 7 support with a dedicated Personal Flight Concierge
- Zero black-out or reserve calendar days
- Option to upgrade or downgrade, get the right jet for the right mission
- Locked-in pricing for the 2-year term
- No positioning, hold fees, crew costs, etc. (one-way flights, no position fees)
- Access to AirSprint's Fuel Program for your current aircraft, potential 10-50% discount
- Access to AirSprint's Empty Legs, flights at 50% off

2-Year Lease // IT MAKES SENSE FOR YOU

With JetAssure by AirSprint, you invest in one specific serial-numbered aircraft and are guaranteed access with 24 hours' notice, anywhere in North America. The lease deposit and fees are proportionate to the number of hours you would like to fly during the term, shares begin at 100 hours and increase in increments of 50 hours. The lease is a 2-year commitment, with the deposit fully refunded at the end of the term. All of your hours can be used at any point in time during your 2-year lease, no black-outs or restrictions. You will benefit from fixed annual and hourly pricing with no fluctuation in costs; this will allow for predictable pricing and budgeting. Finally, you'll also have access to AirSprint's Fuel Program - a program that provides fuel savings on your own aircraft, significantly improving your overall economics.

Your Advantage with JetAssure

 FLY WITHIN CANADA & U.S.	 ELIMINATE POSITIONING	 GUARANTEED ACCESS	 CONSISTENT PRICING	 FLEXIBLE HOURS	 LOWER YOUR FUEL COST
A true North American solution. Fly within Canada and the U.S. and pay operating costs in Canadian dollars.	Need to be in two places at once? Use your JetAssure share, so you're not caught out of position.	365 days a year, you'll have access to your aircraft category. No matter the location within Canada and the U.S. or mission profile.	Your operating costs are locked-in for two years, allowing for a foreseeable budget.	No restrictions on hours. Use all of your hours over a short period to cover off maintenance or use them sporadically throughout the term.	With access to AirSprint's Fuel Program, you'll drive increased cost saving for your own aircraft.

AirSprint's Fuel Program // CASE STUDY

Undeniable Savings // THIS IS THE PROGRAM FOR YOU

In April 2020, an evaluation was conducted to determine the potential savings for a corporate flight department with two aircraft, one a super mid-size jet with approximately 400 hours of annual use, and one a light jet with 350 hours of annual use. The primary cities of operation included: Boston, Calgary, Halifax, Montréal, New York, Palm Springs, Scottsdale, Toronto, Vancouver, and West Palm Beach. The assumed average pricing discount from retail price for the corporate flight department was 10% for domestic locations, and 7% for U.S. locations. AirSprint evaluated the flight pattern and approximate fuel uplift at each location and applied its volume fuel purchase price to determine potential savings. The following table details the analysis.
